THE EARTH

IS

RUNNING

A

FEVER

A CURSE DOESN'T COME WITHOUT A CAUSE

To Our Reader's,

Our Heavenly Father's Name is Yahweh, and He is the Creator of the Universe. The information in this magazine is for educational purposes not to be use as diagnose for disease. For thousand of years we have been plagued with several of diseases and viruses. The whole creation is waiting for the revealing of the sons of Yahweh. The Microorganisms are waiting to be set free from the harsh ruler ship of man. The Microorganisms have been force to do things against their nature all in the name of scientific research. Scientists have used viruses to infect other viruses in order to create a stronger virus. Man has brought about incurable diseases by violating the Laws of Creation. The Microorganisms are now out for revenge; yes they are out for revenge against man for what they have done to them. Families at micro levels have been destroyed all in the name of science. **The blood avengers, the plagues, will destroy until justice is brought to them.** The microorganisms want justice for what has been done to them and they will destroy, until justice is brought about. Bacteria's have been enslaved to do men's demonic deeds all in the name of science. It is time to reveal creation, the Microorganism, plea of Injustice. Without the Microorganisms, creation wouldn't have existed. **So they wait for those who know to stand for their cause.**

TABLE OF CONTENTS

1. The cause of the curse	pg. 3
2. The Purpose of the earth fever	pg. 6
3. Ecosystem Invasion	pg. 9
4. The process of the breath of life	pg. 10
5. What will happen if there is too much carbon dioxide in the air?	Pg. 12
6. The beginning of Creation	pg. 13

The Cause of the Curse

Prov 29:2 When the righteous are in authority the people rejoice: but when the wicked beareth rule the people mourn.

The wicked strives for riches at the expense of the people. The farmland suffers from lack of rest. The land isn't allow to rest in the seventh year to allow it to restore itself. Forests are destroyed for the advancement of corporate development . The forests are essential in the stability of the weather temperature. When there is a lack of trees and green plants, carbon dioxide increases in the atmosphere.

Prov 26:2 KJV - As the bird by wandering as the swallow by flying, so the curse causeless shall not come.

Causeless - heb - 2600 - origin from h2580 - freely, for nothing, without cause

A. gratis, gratuitously, for nothing

B. for no purpose, in vain

C. Gratuitously, **without cause**, undeserving

From 2680; *gratis* , that is, devoid of cost, reason or advantage: - **without a cause** (cost, wages), causeless, to cost nothing, free(-ly), innocent, for nothing (nought), in vain.

A curse do not come without a cause. Man has cause the earth, animals, and the weather to defend itself against man's thoughtless ways.

When Mosheh establish the government, he was told to make all things according to the pattern. Everything on this earth has a pattern in some way based on the Heaven's. Those things of the Heaven are perfect and follow the ordinances with perfection. The moon, stars and the sun have ordinances that they follow. The earth will remain forever and will follow the ordinances of Heaven. These ordinances are of the covenant that Yahweh establish in the beginning that we may have life, prosperity, health, security and peace. When this covenant is broken, curses come.

Deu 29:14 KJV - Neither with you only do I make this covenant and this oath;

Deu 29:15 KJV - But with [him] that stand out here with us this day before Yahweh our Father, and also with [him] that [is] not here with us this day:

Deu 29:16 KJV - (For ye know how we have dwelt in the land of Egypt; and how we came through the nations which ye passed by;

Deu 29:17 KJV - And ye have seen their abominations, and their idols, wood and stone, silver and gold, which [were] among them:)

Deu 29:18 KJV - Lest there should be among you man, or woman, or family, or tribe, whose heart turneth away this day from Yahweh our Father, to go [and] serve the gods of these nations; lest there should be among you a root that beareth gall and wormwood;

Deu 29:19 KJV - And it come to pass, when he heareth the words of this curse, that he bless himself in his heart, saying, I shall have peace, though I walk in the imagination of mine heart, to add drunkenness to thirst:

Diseases, pestilence, war, abnormal weather, deaths, hunger, scorching heat has increased, but in all of this man continues to say their way is better. They believe in their disobedience that Yahweh is with them.

Deu 29:20 KJV - Yahweh will not spare him, but then the anger of Yahweh and his jealousy shall smoke against that man, and all the curses that are written in this book shall lie upon him, and Yahweh shall blot out his name from under heaven.

Deu 29:21 KJV - And Yahweh shall separate him unto evil out of all the tribes of Israel, according to all the curses of the covenant that are written in this book of the law:

Deu 29:22 KJV - So that the generation to come of your children that shall rise up after you, and the stranger that shall come from a far land, shall say, when they see the plagues of that land, and the sicknesses which Yahweh hath laid upon it;

Deu 29:23 KJV - [And that] the whole land thereof [is] brimstone, and salt, [and] burning, [that] it is not sown, nor beareth, nor any grass groweth therein, like the overthrow of Sodom, and Gomorrah, Admah, and Zeboim, which Yahweh overthrew in his anger, and in his wrath:

Deu 29:24 KJV - Even all nations shall say, Wherefore hath Yahweh done thus unto this land? what [meaneth] the heat of this great anger?

When the children of Yisraal were in obedience of the covenant, they were at peace with their enemies. When the covenant was broken it cause a chain reaction within the earth that effect all living upon the earth. The children of Yisraal were told not to learn of the ways of the forbidden nations, but instead they began practicing their ways, not allowing the land to rest in the seventh year. Because of their disobedience the land got weak and stop producing, so the children of Yisraal could not bring forth produce.

Deu 29:25 KJV - Then men shall say, Because they have forsaken the covenant of Yahweh of their fathers, which he made with them when he brought them forth out of the land of Egypt:

Deu 29:26 KJV - For they went and served other gods, and worshipped them, gods whom they knew not, and [whom] he had not given unto them:

Deu 29:27 KJV - And the anger of Yahweh was kindled against this land, to bring upon it all the curses that are written in this book:

Deu 29:28 KJV - And Yahweh rooted them out of their land in anger, and in wrath, and in great indignation, and cast them into another land, as [it is] this day.

Man was given dominion and ruler ship over the Father creation here on this earth. Man's disobedience has cause suffering to the animals of the land and the microorganisms in the earth. This chain reaction has brought disorder and diseases.

Deu 32:24 KJV - [They shall be] burnt with hunger, and devoured with **burning heat**, and with bitter destruction: I will also send the teeth of beasts upon them, with the poison of serpents of the dust.

Burning heat - Strong's H7565 – *resheph* - From [שֶׁפֶרַח](#) H8313) - 1) flame, firebolt, spark

a) flame

b) fire-bolt

Gesenius's Lexicon (Help)

רֶשֶׁף m. — (1) *a flame*, Cant. 8:6; comp. Chald., Ps. 78:48. Targum.

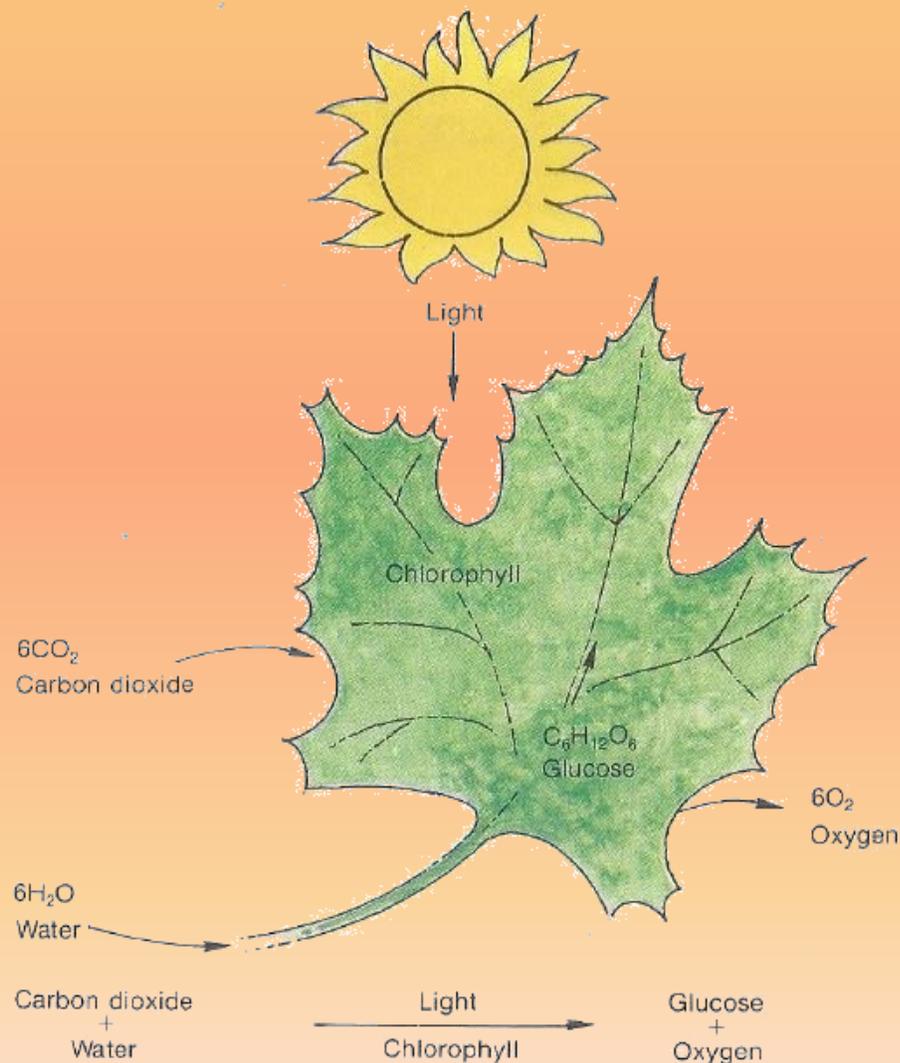

(2) *lightning*, Psa. 78:48. Hence poet., 76:4, רֶשֶׁפִי קִשְׁתִּי “lightnings of the bow,” i. e. arrows, and Job 5:7, בְּנֵי רֶשֶׁף “sons of lightning,” i. e. ravenous birds flying with the rapidity of lightning, Job 5:7.

(3) *a burning fever, a plague*, by which the body is inflamed (compare חֶמָה heat and poison). Deu. 32:24: לְחַמֵי רֶשֶׁף “consumed with pestilence,” Hab. 3:5 (where there is in the other hemistich רֶבֶר plague).

(4) [*Resheph*], pr. n. 1 Ch. 7:25.

The Purpose of the Earth Fever

The sun is the nucleus of our solar system. We couldn't survive without the sun. The sun contains the instruction of life in the form of waves that the green plants and trees absorb. When the earth is deprived of certain living organisms this process of absorption can be interrupted. The photosynthetic bacteria in the plants absorbs the sunlight rays as photons and store it as ATP. When man spray the plants with poisonous chemicals it interrupts the plants process of photosynthesis. Remember in the beginning the green herbs were made in perfection without man's interference. The chemical spray kills the plant, and with the loss of the plant it alters the ecosystem. Green Plants and Trees absorb carbon dioxide out of the air and replace it with oxygen.

Jam 1:11 KJV - For the sun is no sooner risen with a burning heat, but it withereth the grass, and the flower thereof falleth, and the grace of the fashion of it perisheth: so also shall the rich man fade away in his ways.

The rich man who profits at the destruction of the earth will suffer for their action. The earth provides for our life, for the earth is the mother of us all. The sun will destroy that which is weak, for it is as fire. It is by this fire, the sun, will the earth be purified and restored to its correct order. All that is imperfect the sun will try it and bring forth the impurities of it. *It is through this process that a purging will take place.* This process is what is called the earth is running a fever, fervent heat.

The sun along with the earth will correct the lawlessness of man with a price, that will cause their life. Look at the events all over the world. There is diseases, war, death, hunger and abnormal weather. This is only the beginning of our sorrows.

Deu 32:24 KJV - [They shall be] burnt with hunger, and devoured with burning heat, and with bitter destruction: I will also send the teeth of beasts upon them, with the poison of serpents of the dust.

2Pe 3:10 KJV - But the day of Yahweh will come as a thief in the night; in the which the heavens shall pass away with a great noise, and the elements shall **melt** with **fervent heat**, the earth also and the works that are therein shall be burned up.

Melt - Strong's G3089 – *lyō - λύω* - A root word - 1) to loose any person (or thing) tied or fastened

- a) bandages of the feet, the shoes,
- b) of a husband and wife joined together by the bond of matrimony
- c) of a single man, whether he has already had a wife or has not yet married
- 2) to loose one bound, i.e. to unbind, release from bonds, set free
 - a) of one bound up (swathed in bandages)
 - b) bound with chains (a prisoner), discharge from prison, let go
- 3) to loosen, undo, **dissolve**, anything bound, tied, or compacted together
 - a) an assembly, i.e. to dismiss, break up
 - b) laws, as having a binding force, are likened to bonds
 - c) **to annul**, subvert
 - d) to do away with, to deprive of authority, whether by precept or act
 - e) to declare unlawful
 - f) **to loose what is compacted or built together, to break up, demolish, destroy**
 - g) **to dissolve something coherent into parts, to destroy**
 - h) metaph., to overthrow, to do away with

fervent heat - Strong's G2741 – *kausōō* - From *καῦσις* (G2740) - 1) to burn up, set fire to

- 2) to suffer with feverish burning, **be parched with fever**

fer·vent (fûr v^ə nt)
adj.

1. Having or showing great emotion or zeal; ardent: *fervent protests*; a *fervent admirer*.
2. Extremely hot; glowing.

[Middle English, from Old French, from Latin *fervere*, fervent-, present participle of *fervere*, to boil; see *bhreu-* in Indo-European roots.]

Fever, elevation of body temperature above the normal level, which in humans is about 98°F; (37°C;) when measured orally. Fever is considered to be a symptom of a disorder rather than a disease in itself. Under normal conditions the heat that is generated by the burning of food by the

Fever – symptom of a disorder caused by the invasion of a pathogenic agent (microorganism or virus)

Infection – The state or condition in which the body or a part of it is invaded by a pathogenic agent (microorganism or virus) that, under favorable conditions, multiplies and produces injurious effects. Localized infection is usually accompanied by inflammation, but inflammation may occur without infection

body is dissipated through such processes as perspiration and breathing. It is believed that infectious diseases, injury to the body tissues, and other conditions that cause inflammation lead to the release of prostaglandins, a type of hormone, which bind to sites in the hypothalamus, the center of temperature control in the body. The rise in temperature that is triggered as a result acts as part of the body's defenses against infection; white blood cells become more active, and most bacteria do not thrive as well. The effects of fever on the body are weakness, exhaustion, and sometimes a depletion of body fluids through excessive perspiration. Extremely high fevers may cause convulsive reactions and eventual death. In addition to infectious diseases (such as

pneumonia and tonsillitis), disorders of the brain, certain types of cancer, and severe heatstroke may cause fever. There are also cases of fever where the cause cannot be detected. Treatment includes increasing the intake of fluids and administering aspirin and other fever-reducing medications. Aspirin may be dangerous in fevers of children because of Reye's syndrome. However, primary treatment is directed at the underlying cause unless the fever is very high (above 104°F; 40°C;). Persons with such dangerously high fevers are sometimes sponged with cool water or immersed in cool baths.

The Free Dictionary by Farlex

These elements which are the building blocks of creation will be tried by fire to test its order according to the plan. All elements that consist of a mixture will be separated. Do not sew the old with the new, or wool with linen. Everything of its order must be in its order. The unequally yoke will be separated. Creation of a mixture will be destroyed if not restored. Great Example is the man in Nebuchadnezzar Dream. The clay and iron was separated. That vessel which stands the fire will receive a reward.

The Ecosystem Invasion

An ecosystem is a community of living organisms (plants, animals and microbes) in conjunction with the nonliving components of their environment (things like air, water and mineral soil), interacting as a system.[]

Energy, water, nitrogen and soil minerals are other essential abiotic components of an ecosystem. The energy that flows through ecosystems is obtained primarily from the sun. It generally enters the system through photosynthesis, a process that also captures carbon from the atmosphere. By feeding on plants and on one another, animals play an important role in the movement of matter and energy through the system. From Wikipedia, the free encyclopedia

The earth ecology system has been invaded by a pathogen agent called man, which continues to practice lawless action to the atmosphere, land, water, animals, food, and the burning of the trees in the forest. When elements are not in correct order of process, there will arise a disruption that will call disorder. When there is disorder, there will also be confusion. We know that the author of confusion is Satan which is Death.

We are instructed not to destroy any tree that brings forth fruit.

Deuteronomy 20:19 When thou shalt besiege a city a long time in making war against it to take it, thou shalt not destroy the trees thereof by forcing an axe against them: for thou mayest eat of them, and thou shalt not cut them down (for the tree of the field is man's life) to employ them in the siege:

Deuteronomy 20:20 Only the trees which thou knowest that they be not trees for meat, thou shalt destroy and cut them down, and thou shalt build bulwarks against the city that maketh war with thee, until it be subdued.

Read Deut. 20:19 carefully, for it says the tree of the field is man's life. In the beginning, Yahweh gave us every herb bearing seed, which is upon the face of all the earth, and every tree, in which is the fruit of a tree yielding seed for meat. Gen 1:29

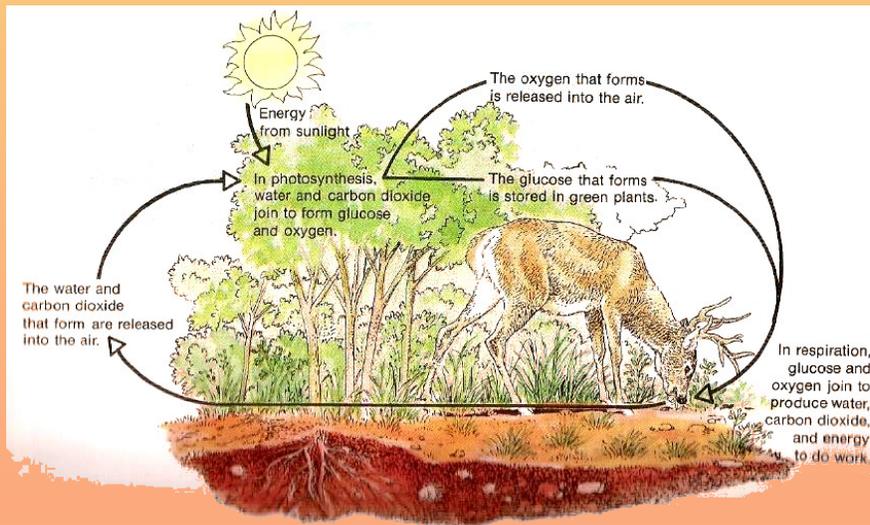

Gen 2:17 But of the tree of the knowledge of good and evil, thou shalt not eat of it: for in the day that thou eatest thereof thou shalt surely die.

The tree of knowledge is a mixture of righteousness and evil which is of Death. Death is the curse to man. Mixture is a combination of two or more substances without chemical union. When there is no union there is no bond. When a mixture is introduced into a process it will cause disorder, because it has no specific order. When there is a disorder in the process it halts it until it is corrected.

The Process of the Breath of Life

In the beginning of the creation of man, before anything of the field was in the earth, Yahweh had not allowed it to rain yet nor was a man to cultivate the field. Through the changes in temperature between daytime (light, heat) and nighttime (darkness, coolness) rain was produced by daily evaporation and condensation. It was after this Yahweh formed man of the dust of the ground and breathed into his nostrils the breath of life, and man became a living soul. ^{Gen 2:7}

The breath of **life** consists of an order within the ecosystem, that contains microorganisms, plants known as herbs, trees, animals, the sun and water that operates within the system to facilitate the process.

Life - 2416 chay khah'-ee from [2421](#); alive; hence, raw (flesh); **fresh (plant, water, year)**, strong; also (as noun, especially in the feminine singular and masculine plural) life (or living thing), whether literally or figuratively:--+ age, alive, appetite, (wild) beast, company, congregation, life(-time), live(-ly), living (creature, thing), maintenance, + merry, multitude, + (be) old, quick, raw, running, springing, troop.

The word life has as one of its definition *fresh (plant, water)*. The word plant is defined as

n.

1. Botany

a. Any of various photosynthetic, eukaryotic, multicellular organisms of the kingdom Plantae characteristically producing embryos, containing chloroplasts, having cellulose cell walls, and lacking the power of locomotion.

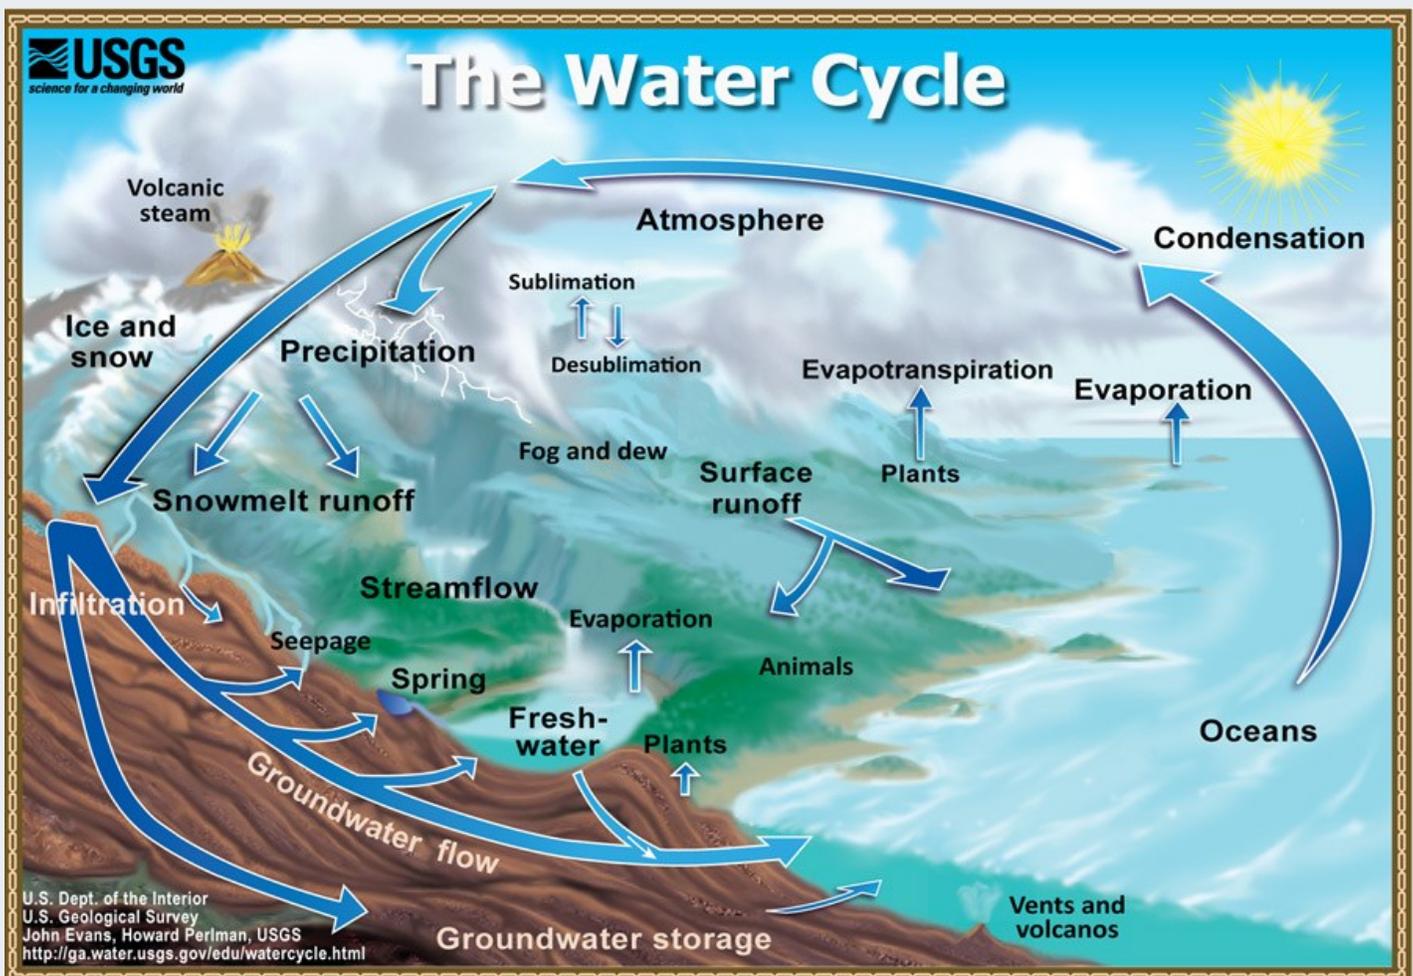

b. A plant having no permanent woody stem; an herb.

The life of all flesh is in the blood.. The blood is the carrier of oxygen and carbon dioxide. The life is the oxygen release into the atmosphere from the plants by the sunlight acting upon the water to release the oxygen molecule of water. The plants and trees produce the oxygen we need to breathe. The Breath of Life.

The word life in medical terminology in Greek means - *bios, bio, life*.

James 4:14, *For what is your life? It is even a vapor, that appeareth for a little time, and then vanisheth away.*

Photosynthesis - In photosynthesis, a green plant use carbon dioxide, water, and light energy from the sun to produce glucose and release oxygen, The sun's energy or light energy, is converted to chemical energy in the bonds of glucose. Photosynthesis occurs in plant cell organelles called chloroplasts. They contain chlorophyll, a green pigment that captures the energy from the sun. Organisms that use light energy to make their own food are called autotrophs. Carbon dioxide and water are needed for photosynthesis. **When there is a drought photosynthesis stops.**

What will happen if there is too much carbon dioxide in the air?

If the percentage of carbon dioxide present in the atmosphere increases, animals with low tolerance to CO₂ will die (this is already occurring to a slight degree). This in turn will result in lower CO₂ emissions from the natural world. Experiments have shown that increased CO₂ levels result in higher photosynthesis rates in plants, which will also keep the atmosphere at an equilibrium. From these two biological responses to this problem, we can draw that; ***'Without "unnatural" influences, the CO₂ level in the atmosphere will remain in a stable state.'***

Unfortunately, humans present what could be called an "unnatural" influence on CO₂ levels. When enough CO₂ is released (and the earth's temperature subsequently rises), the massive ice sheet on Greenland will melt, pouring huge quantities of fresh water into the ocean, which will cause the ocean conveyor belt (which circulates water around the globe thus keeping arctic oceans from freezing and tropical oceans from warming) to freeze. This will initiate an ice age. Ice laid down during ice ages contains a large amount of CO₂, as shown by ice sampling in Antarctica.

It is hypothesized that past ice ages were initiated by huge forest fires, in forests that once circled the globe, which destroyed the earth's compensation methods at the same time as releasing vast quantities of CO₂. An ice age would return the earth to a state of equilibrium in terms of CO₂. Rising CO₂ will not result in the end of life on earth; just a somewhat severe reduction in it.

Reduced Vegetation

A study released in 2002 by Stanford University found that excess carbon dioxide in the air actually reduced vegetation and plant growth. Less plants means more carbon dioxide to heat up the Earth. This also affected crop growth, which means less food for the planet to consume. Another study conducted by Joy Ward at the University of Kansas concluded the same thing. Ward exposed plants to high doses of CO₂ and did so for five generations of the same plant. Over enough time, the plant actually shrank in size.

Increased Global Warming

A study released in 2010 by the Carnegie Institution for Science found excess CO₂ shrinks leaf pores, or stomata, so the plants emit less water to cool the air. With decreased cooling, the temperature rises. Researchers found that this effect increased the temperatures of the land surface by between 16 and 25 percent, depending on the region.

The Beginning of Creation

Within the Semen's (seed, **water**) are the micro life that breeds life and death. This micro life is the Microorganisms, which is Microbiology. **The Microbes are classified into species: bacteria, spirochetes, viruses, rickettsia, shumydiae, fungi, yeast, molds, protozoa, and helmiths (worms).**

Gen 1:20 And Yahweh said, Let the **waters** [semen's] bring forth [breed] abundantly the moving [micro] creature [microbes, animals, life] that hath life, and fowl that may fly above the earth in the open firmament of heaven.

Waters- 4325 mayim (mah'-yim); dual of a primitive noun (but used in a singular sense); water; figuratively, juice; by euphemism, urine, **semen:** KJV-- + piss, wasting, water (-ing, [-course, -flood, -spring]).

Brown-Driver-Briggs'

4325 mayim-
water, waters

- a) water
- b) water of the feet, that is, urine
- c) used of danger, violence, transitory things, refreshment (figurative)

Reading from Taber's Cyclopedic Medical Dictionary, by F.A Davis, pp.1776, Semen [L., seed} (pl. semina). A thick, opalescent, viscid secretion discharged from the urethra of the male at the climax of sexual excitement (orgasm). Contains the **spermatozoa**. Semen is the mixed product of various glands (prostate and bulbourethral) the spermatozoa, which, having been produced in the testicles, are stored in the vesicles.

Reading from Taber's Cyclopedic Medical Dictionary, by F.A Davis, pp, 1839, "Spermatozoa" Pl. of spermatozoon.

Spermatozoon-[“ + zoon, life] (pl. *spermatozoa*) **The mature male sex or germ cell** formed within the seminiferous tubules of the testes. The spermatozoon has a broad oval flattened head with a nucleus and a protoplasmic neck or middle piece and tail. It is about 51 microns long and resembles a tadpole. It has the power of self-propulsion by means of a flagellum. Develops after puberty from the spermatids in the testes in enormous quantities. The head pierces the envelope of the ovum and loses its tail when fusion of the two cells takes place. This process is called fertilization.

Reading from Taber's Cyclopedic Medical Dictionary, by F.A Davis, pp, 1838 Spermato- [Gr. *sperma, spermatos*, seed]. Combing form meaning sperm, to sow seed.

Gen 1:20 And Yahweh said, Let the waters [semen's] **bring forth** [breed] abundantly the moving [micro] creature [microbes, animals, life] that hath life, and fowl that may fly above the earth in the open firmament of heaven.

Bring forth- 8317 sharats (shaw-rats'); a primitive root; to wriggle, i.e. (by implication) swarm or abound:

KJV-- **breed** (bring forth, increase) abundantly (in abundance), creep, move.

Brown-Driver-Brigg's

8317 sharats-
(Qal)

to teem, to swarm, to multiply .

a) to swarm, to teem

b) to swarm

Reading from Macmillan Dictionary pp. 120, "Breed" v. 1. To cause to reproduce, esp. in order to develop certain qualities; raise. 2. To give rise to; produce; cause. 1. To produce offspring; 2. To be produced; develop; n. 1. Variety or strain of a species; 2. Kind or sort of anything; type.

Reading from Taber's Medical Dictionary pp. 794, "Genus" [L. *genus*, **kind] (pl. *genera*) .** In biology, the **taxonomic** division between the **species** and the family.

Reading from Taber's Medical Dictionary pp. 1951, "Taxonomic" Concerning taxonomy.

"Taxonomy" [+ *nomos*, law]. Laws and principles of classification of animals and plants. Also used for classification of learning objectives.

Gen 1:20 And Yahweh said, Let the waters [semen's] bring forth [breed] abundantly the **moving** [micro] creature [microbes, animals, life] that hath life, and fowl that may fly above the earth in the open firmament of heaven.

Moving- 8318 sherets (sheh'-rets); from 8317; a swarm, i.e. active mass of **minute** animals: KJV-- creep (-ing thing), move (-ing creature).

Brown-Driver-Briggs'

8318 sherets-

teeming or swarming things, creepers, swarmer; used of insects, animals, small reptiles, quadrupeds

Reading from Taber's Medical Dictionary pp. 1616- Protozoa- [" + *zoon*, animal]. The phylum of the animal kingdom that includes the simplest animals. Most are unicellular, although some are colonial. Reproduction usually asexual by fission, although conjugation and sexual reproduction occur.

Reading from Macmillan Dictionary pp. 648, “minute” adj. 1. Very small; tiny 2. Of small importance’ trifling; 3. Characterized by close attention to details. [Latin *minutus* **small]**

Reading from Macmillan Dictionary pp.642, “micro-“ *combining form* 1. Very small [Greek *mikros* **small]**

Every form of life that was created, was for the purpose of maintaining mankind, and the earth. These life form were a process of the ecosystem. Man, with their genetic engineering, has changed the order of creation. It is because of this, that the flood came in the beginning. Water and fire is the only two forms of purification. Water in the beginning was used to purify the earth, but fire will be used in the last purification.

The sun will heat the earth up to break up any bonds of creation that isn’t according to the pattern. This disorder can’t be allowed to continue, because if allowed, man and animal will cease to exist.

1Co 3:13 KJV - Every man's work shall be made manifest: for the day shall declare it, because it shall be revealed by fire; and the fire shall try every man's work of what sort it is.

1Co 3:15 KJV - If any man's work shall be burned, he shall suffer loss: but he himself shall be saved; yet so as by fire.

Remember, when our body is infested with viruses or pestilence, it will run a fever to fight off the unwanted tenants in our body.

1Co 3:17 KJV - If any man defile the temple of Yahweh, him shall Yahweh destroy; for the temple of Yahweh is holy, which temple ye are.

Remember, the plants and trees removes the carbon dioxide out of the atmosphere. When there is a reduction in green plants and trees, there will be a rise in carbon dioxide. When carbon dioxide rises in the atmosphere, it raises the temperature of the earth. **This rise of temperature is known as a fever.**

Gen 9:11 KJV - And I will establish my covenant with you; neither shall all flesh be cut off any more by the waters of a flood; neither shall there any more be a flood to destroy the earth.

Gen 9:12 KJV - And Yahweh said, This is the token of the covenant which I make between me and you and every living creature that is with you, for perpetual generations:

Gen 9:13 KJV - I do set my bow in the cloud, and it shall be for a token of a covenant between me and the earth.

Gen 9:15 KJV - And I will remember my covenant, which is between me and you and every living creature of all flesh; and the waters shall no more become a flood to destroy all flesh.

Gen 9:16 KJV - And the bow shall be in the cloud; and I will look upon it, that I may remember the everlasting covenant between Yahweh and every living creature of all flesh that is upon the earth.
